Deb, writing a short note expressing our satisfaction of your company's workmanship and how timely you were in getting the job done. Denise and I are very satisfied in how the project turned out. Your subs were very professional and friendly through the entire process. The workmanship was very good and any issues we had were addressed and resolved without incident. As we told you we have had many comments about how the addition blends with the house structure that was here and that you cannot tell it is an add on.

We would recommend you to any one that would ask and feel free to have any of your potential clients to contact us for a referral.

Regards,

David and Denise
